

## BÖLME İŞLEMİNİN TERİMLERİ ARASINDAKİ İLİŞKİYİ BELİRLEYELİM

Aşağıdaki bölme işlemlerindeki bölüneni örneklerdeki gibi bulup yerine yazarak işlemi tamamlayalım.

$$\begin{array}{r|l} 19 & 3 \\ -18 & 6 \\ \hline 01 & \end{array} \quad \begin{array}{r} 3 \\ \times 6 \\ \hline 18 \end{array} \quad \begin{array}{r} 18 \\ + 1 \\ \hline 19 \end{array}$$

Bir bölme işleminde kalan "0" değil ise ; önce bölüm ile böleni çarparsız, sonra bulduğumuz sayıya kalanı ekleyerek bölüneni buluruz.

$$\begin{array}{r|l} \dots & 2 \\ - \dots & 5 \\ \hline 01 & \end{array} \quad \begin{array}{r} \dots \\ \times \dots \\ \hline \dots \end{array} \quad \begin{array}{r} \dots \\ + \dots \\ \hline \dots \end{array}$$

$$\begin{array}{r|l} \dots & 4 \\ - \dots & 3 \\ \hline 02 & \end{array} \quad \begin{array}{r} \dots \\ \times \dots \\ \hline \dots \end{array} \quad \begin{array}{r} \dots \\ + \dots \\ \hline \dots \end{array}$$

$$\begin{array}{r|l} \dots & 5 \\ - \dots & 6 \\ \hline 04 & \end{array} \quad \begin{array}{r} \dots \\ \times \dots \\ \hline \dots \end{array} \quad \begin{array}{r} \dots \\ + \dots \\ \hline \dots \end{array}$$

$$\begin{array}{r|l} \dots & 8 \\ - \dots & 4 \\ \hline 07 & \end{array} \quad \begin{array}{r} \dots \\ \times \dots \\ \hline \dots \end{array} \quad \begin{array}{r} \dots \\ + \dots \\ \hline \dots \end{array}$$

$$\begin{array}{r|l} \dots & 9 \\ - \dots & 7 \\ \hline 06 & \end{array} \quad \begin{array}{r} \dots \\ \times \dots \\ \hline \dots \end{array} \quad \begin{array}{r} \dots \\ + \dots \\ \hline \dots \end{array}$$

$$\begin{array}{r|l} \dots & 7 \\ - \dots & 2 \\ \hline 05 & \end{array} \quad \begin{array}{r} \dots \\ \times \dots \\ \hline \dots \end{array} \quad \begin{array}{r} \dots \\ + \dots \\ \hline \dots \end{array}$$

$$\begin{array}{r|l} \dots & 6 \\ - \dots & 7 \\ \hline 04 & \end{array} \quad \begin{array}{r} \dots \\ \times \dots \\ \hline \dots \end{array} \quad \begin{array}{r} \dots \\ + \dots \\ \hline \dots \end{array}$$

$$\begin{array}{r|l} \dots & 4 \\ - \dots & 9 \\ \hline 03 & \end{array} \quad \begin{array}{r} \dots \\ \times \dots \\ \hline \dots \end{array} \quad \begin{array}{r} \dots \\ + \dots \\ \hline \dots \end{array}$$
