Çıkarma işlemlerini yapınız.

A box containing 3 cars (2 purple, 1 blue) with a dashed red circle around the blue car and a red arrow pointing to a box containing 1 blue car. This is followed by an equals sign and a box containing 2 purple cars. Below each box is a small empty box for the answer.

$$\square - \square = \square$$

A box containing 4 yellow fish (3 on the left, 1 on the right) with a dashed red circle around the fish on the right and a red arrow pointing to a box containing 1 yellow fish. This is followed by an equals sign and a box containing 3 yellow fish. Below each box is a small empty box for the answer.

$$\square - \square = \square$$

A box containing 4 green grasshoppers (2 on the left, 2 on the right) with a dashed red circle around the grasshoppers on the right and a red arrow pointing to a box containing 2 green grasshoppers. This is followed by an equals sign and a box containing 2 green grasshoppers. Below each box is a small empty box for the answer.

$$\square - \square = \square$$

A box containing 6 orange basketballs (3 on the top row, 3 on the bottom row) with a dashed red circle around the top row and a red arrow pointing to a box containing 2 orange basketballs. This is followed by an equals sign and a box containing 4 orange basketballs. Below each box is a small empty box for the answer.

$$\square - \square = \square$$
